 The Cambridge Belfry Hotel in Cambridgeshire, CB23 6BW

After many years of providing education and training via Teams, Dispex has decided to run our first face-to-face seminar since Covid. This will take place on Thursday **25th June 2026**, at the Cambridge Belfry Hotel in Cambridgeshire. This one-day seminar will be aimed at Dispensers, Dispensary Managers, Practice Managers and GPs who have responsibility for the dispensary.

The programme will be focused on assisting dispensaries with increasing their efficiency as well as profitability. **Dr Ankit Kant**, from AnkitAI, will be showing delegates how to utilise AI to reduce administrative workload and how technology can assist and not threaten the workforce.

Kenny Inman, a dispensary friendly PCN pharmacist who ensures his PCN and others take into account the need for dispensing practices to avoid loss making prescribing, will be discussing "**How to train your PCN/Neighbourhood Pharmacist**". There will also be presentations on the benefits of Dispensary Managers and how to ensure they feel equipped to take on this increasingly complex role.

Dr Philip Koopowitz will be focusing on profitability and showing delegates how, by making small changes to processes, large losses can be avoided. This will include a session on Unravelling PAs and VAT, as well as how to set up a Dispensary Friendly formulary, using ePACT data, the DM+D and the Drug

Tariff. The day will conclude with Hints and Tips for prescribing and dispensing, and is sure to highlight the easy and the not-so-easy wins that can transform your dispensary.

There will be plenty of time for Q&As.

There are already 6 Exhibitors who will be present, each of which has been chosen specifically for the potential benefit they provide to dispensing practices. In next month's Gazette, we will run a profile of each exhibitor. We currently have space for a maximum of 8 exhibitors.

Booking for delegates is now open and one third of places have already been booked. Book now to avoid disappointment. Dispex members can **book** at the preferential rate of £50 + VAT per delegate. Non-members will need to **contact** the Dispex team to reserve their place.

Although our venue is in East Anglia, we already have delegates booked from all over the country. Our wish is to replicate this learning event in other venues, to allow the many rural dispensing practices the opportunity to attend a day of learning and exchanging ideas, closer to their locations.

Any potential exhibitors will need to contact us by email: **pdk@dispex.net**.

Registration

Members: dispex.net/dispexlive • £50+VAT pp
Non-members: training@dispex.net • £200+VAT pp
